

***Yea she's got long legs and huge tits.***

She's a real woman.

I have a friend with huge tits.

Having huge tits is their only feminine characteristic. aside from that, they're my brother.

They're just as much of a man as my brother. and straight guys still want to fuck them.

I remember once when I was 11, I captioned the lyrics;

*"like a beautiful woman with large breasts"*

from a trip hop song as my MSN status.

I used to send naughty messages & video-call another lebanese 13 year old guy over MSN with my family friend.

This family friend also had huge tits as a preteen. so one day she asked if the status was about her.

I didn't wanna let her down because she was kind of dumb, so I said '*yeah maybe it is*'.

I never had big tits and I still don't.

& as far as I'm aware, push up bras are only designed to hurt me.

Don't get me wrong, I love huge tits.

But I always empathise with cam-guys with small dicks.

Another friend of mine with big tits wanted to make me feel bad once on our walk home from highschool

& decided to criticise my small ones in front of our friends.

She said '*when are your tits gonna finally grow*'.

And everyone looked at her like the moron she was and I said '*I'm not worried about it*'

Little did she know my prepubescent size 6 ass liked having small tits to compliment my thin, yet toned build.

No wonder so many 25 year olds would hit on me back then.

Estranged popular girls would tell me I had an ideal body at age 16.

& that's why it's such a shame I was so physically repressed.

Y'know when I wore a tight short skirt, my closest friends would slap my arse walking up the stairs.

I was detached enough from my body that I neither disliked or enjoyed it.

But I mean, surely I sort of liked it.
